

SAFE VISITORS GUIDE

The Staff of the Madison Museum of Contemporary Art (MMoCA) look forward to welcoming visitors to the 63rd annual Art Fair on the Square on Saturday, September 25 (9 am-6 pm), and Sunday, September 26 (10 am-5 pm) around the Capitol Square. Our aim is to present a safe and enjoyable event while raising funds to support the Museum's operations, collections, exhibitions, educational programs, events, and year-round free admission.

With that being said, we recognize that the Coronavirus pandemic has not ended. We are taking steps to help protect attendees, volunteers, exhibitors, and staff, but there are additional steps you can take to protect yourself and the community.

Masks are strongly encouraged throughout the outdoor event, even if you are fully vaccinated. **We hope to welcome many visitors to the Art Fair, and walking space is limited. Masks should fully cover your mouth and nose.**

Where feasible and possible, we encourage visitors to get fully vaccinated before attending the popular event.

Please monitor your health before heading to the fair:

In the last 48 hours, if you or anyone in your home has experienced one or more of the symptoms of COVID-19 (listed below) please stay home:

- Cough
- Shortness of breath or problems breathing
- Chills
- Sore throat
- Loss of taste or smell
- Muscle pain or body aches
- Headache
- Fever (at or above 100.4 degrees F) or chills within the last 24 hours
- Runny nose or nasal congestion
- Nausea or vomiting
- Diarrhea

If you have tested positive for COVID-19 in the last 14 days please, stay home to avoid spreading illness to others. If you tested positive more than 14 days ago *and* are now symptom free, you are welcome to attend the event.

If you have been in Close Contact with someone who has tested positive for COVID-19 in the last 14 days please stay home. Any symptom alone, such as a runny nose or congestion, may be an indication of COVID-19. **Close contact** means any of the following:

- You have been within 6 feet of someone with COVID-19 for at least 15 minutes total in a day.
- You had physical contact with someone with COVID-19.
- You had direct contact with the respiratory secretions of someone with COVID-19.

- You live with or stayed overnight for at least one night in a household with someone with COVID-19.

You are less likely to be exposed to COVID-19 when you:

- Attend outdoor activities instead of indoor activities
- Stay at least 6 feet apart
- Limit the amount of time spent with people who don't live with you
- Wear a mask in indoor and crowded outdoor settings

Wash your hands often

Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing. It's especially important to wash:

- Before eating or preparing food
- Before touching your face
- After using the restroom
- After leaving a public place
- After blowing your nose, coughing, or sneezing
- After handling your mask
- After changing a diaper
- After caring for someone sick
- After touching animals or pets
- If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Cover all surfaces of your hands and rub them together until they feel dry.

Avoid touching your eyes, nose, and mouth with unwashed hands.

Cover coughs and sneezes

- **If you are wearing a mask:** You can cough or sneeze into your mask. Put on a new, clean mask as soon as possible and wash your hands.
- **If you are not wearing a mask:**
 - Always cover your mouth and nose with a tissue when you cough or sneeze, or use the inside of your elbow and do not spit.
 - Throw used tissues in the trash.
- **Immediately wash your hands** with soap and water for at least 20 seconds. If soap and water are not readily available, clean your hands with a hand sanitizer that contains at least 60% alcohol.

Follow CDC guidance if symptoms develop:
